## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-5, drawn to a pump.

Group 2, claim(s) 6-10, drawn to a hubless reverse flow rotor.

Group 3, claim(s) 11-24, drawn to a reverse flow pump and coaxial lumen system.

Group 4, claim(s) 25-27, drawn to a heart stabilization system.

Group 5, claim(s) 28, drawn to an organ stabilization device.

Group 6, claim(s) 29, drawn to a method of stabilizing an operative site on an organ.

Group 7, claim(s) 30, drawn to a cardiac wall during heart surgery.

Group 8, claim(s) 31-37, drawn to a coaxial lumen assembly.

Group 9, claim(s) 38-41, drawn to a dual lumen fluid transport device.

Group 10, claim(s) 42-46, drawn to a reverse flow dual lumen system.

The inventions listed as Groups 1-10 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features. As indicated on the "International Preliminary Examination Report" the *"presentation of a plurality of independent claims makes it impossible to identify 'the claimed invention' on which an opinion should be based in the sense of Article 33(1)PCT"*. In view of applicant's specification, it is the Examiner's position that none of the 10 groups contain a single general inventive concept.

A telephone call was made to Daniel Ryan on 7/16/02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 3738

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bruce E Snow whose telephone number is (703) 308-3255. The examiner can normally be reached on Mon-Thurs.
